SINGLE PACKAGE	1 pcs	
COLLECTIVE PACKAGING	10 pcs strap	480 pcs/ 1 pallet
PRODUCT BENEFITS	<ul style="list-style-type: none"> ✓ Composite deck tiles replace the traditional decking assembly method of laying boards onto the previously prepared joist construction. ✓ Simple and quick assembly and disassembly – tiles are connected by interlocking click system. ✓ Perfect for decking and balconies – the assembly does not require fastening the boards to the base. The tiles can be cut to size. ✓ Very attractive price, which includes the assembly crew cost (assembly is very simple and can be done by the customer). ✓ Material resistant to changing weather conditions, rotting, fungal and insect attacks. ✓ High quality and consistency of the product. Uniform tile colour. ✓ Does not require maintenance, painting and oiling ✓ Easy to clean.
