

TEXTILE GENERIC TECHNICAL SHEET						
Curtains / Net curtains						
PROJECT						
Date :	2021/3/30	Reference :	HLY1242			
Weight/sqm (fabric only)	459G/M2					
SERIAL NAME	AURIANE					
SAMPLE STATUS (AO, silver, gold...)	gold					
Composition fabric	100%Polyester	in % of each fiber for fabric covering				
DETAILS :						
Warp threads	Composition	100%Polyester		Materials and exact proportion of different materials		
	Number / cm	64		Density of threads per cm		
	Yarn numbering	100D	unit ?	Weight of threads, very important to precise the unit (Nm, Dtex, ...)		
	Type (combed, textured...)	Texture yarns		Specificity of the thread		
	Finishing (mercerised,)	Overflow dyeing				
Weft threads	Composition	100%Polyester		Materials and exact proportion of different materials		
	Number / cm	18		Density of threads per cm		
	Yarn numbering	5.3N Chenille yarn	unit ?	Weight of threads, very important to precise the unit (Nm, Dtex, ...)		
	Type (combed, textured...)	Spun yarns		Specificity of the thread		
	Finishing (mercerised,)	Overflow dyeing				
Sewing thread	Composition	100%Polyester		Materials and exact proportion of different materials		
	Yarn numbering	40D		Weight of threads, very important to precise the unit (Nm, Dtex, ...)		
	Finition (mercerised,)	Dyeing				
	Type of sewing (ISO 4915)	301 flat stitch		Please refer to ISO 4915 international standart to describe the sewing point		
	Density /cm	3.6/cm		Number of point per cm, or other unit to be detailed		
Dyeing	Reactive, pigment, ...	Disperse		What kind of dyeing process and what kind of pigment		
	Yarn dyed	NO				
Printing (if applicable)	Technique (rotative or flat scr	NO		Describe the technic used for printing		
	Number of colors	NO				
Pile velvet (if applicable)	Composition	NO		Materials and exact proportion of different materials		
	Yarn numbering	NO		Weight of threads, very important to precise the unit (Nm, Dtex, ...)		
	Density (nb/cm²)	NO		Density of velvet pile per cm²		
	Height	NO		Height of the velvet pile in mm		
IF CONCERNED						
If some specific treatments or finishing applied, it must be described below						
Coating (if applicable)	Position (under or above fabr	Under				
	Composition	Titanium dioxide 38.8%, Acrylate 58.2% Silico		Chemical composition of the coating		
	g/m² (total)	150		If different layers, please indicate for example for 2 layers of 35g/m² : 2 x 35g		
Repealant treatment	Composition	NO		Chemical composition of the coating		
	g/m² (total)	NO		If different layers, please indicate for example for 2 layers of 35g/m² : 2 x 35g		
Finish (other)	Composition	NO		Chemical composition		
Specific finishes	Ultrasound	YES / NO	NO			
	Burnout	YES / NO	NO			
	Sanforized	YES / NO	NO			
	Other	YES / NO	NO			
Washing details						
(please tick the right information)
