

TEXTILE GENERIC TECHNICAL SHEET			
Curtains / Net curtains			
<b>PROJECT</b>			
Date :	2021/3/25	Reference :	A90041E/TR4/A90041TH
Weight/sqm (fabric only)	276.1g/m2		
SERIAL NAME	LOOKS		
SAMPLE STATUS (AO, silver, gold...)	Gold		
Composition fabric	100%polyester	in % of each fiber for fabric covering	
<b>DETAILS :</b>			
<b>Warp threads</b>	Composition	100%polyester	Materials and exact proportion of different materials
	Number / cm	8	Density of threads <b>per cm</b>
	Yarn numbering	1100D	unit ? .....
	Type (combed, textured...)	composite yarn	Weight of threads, very important to precise the unit (Nm, Dtex, ...)
	Finishing (mercerised, ....)	n/a	Specificity of the thread
<b>Weft threads</b>	Composition	100%polyester	Materials and exact proportion of different materials
	Number / cm	8	Density of threads <b>per cm</b>
	Yarn numbering	1650D	unit ? .....
	Type (combed, textured...)	composite yarn	Weight of threads, very important to precise the unit (Nm, Dtex, ...)
	Finishing (mercerised, ....)	n/a	Specificity of the thread
<b>Sewing thread</b>	Composition	100%polyester	Materials and exact proportion of different materials
	Yarn numbering	40Sx2	Weight of threads, very important to precise the unit (Nm, Dtex, ...)
	Finition (mercerised, ....)	combed	
	Type of sewing (ISO 4915)	Class 301	Please refer to ISO 4915 international standart to describe the sewing point
	Density /cm	7 point / 3cm	<b>Number of point per cm, or other unit to be detailed</b>
<b>Dyeing</b>	Reactive, pigment, ...	Reactive	What kind of dyeing process and what kind of pigment
	Yarn dyed	NO	
<b>Printing (if applicable)</b>	Technique (rotative or flat scr	n/a	Describe the technic used for printing
	Number of colors	n/a	
<b>Pile velvet (if applicable)</b>	Composition	n/a	Materials and exact proportion of different materials
	Yarn numbering	n/a	Weight of threads, very important to precise the unit (Nm, Dtex, ...)
	Density (nb/cm <sup>2</sup> )	n/a	Density of velvet pile <b>per cm<sup>2</sup></b>
	Height	n/a	Height of the velvet pile in <b>mm</b>
<b>IF CONCERNED</b>			
If some specific treatments or finishing applied, it must be described below			
<b>Coating (if applicable)</b>	Position (under or above fabr	n/a	
	Composition	n/a	Chemical composition of the coating
	g/m <sup>2</sup> (total)	n/a	If different layers, please indicate for example for 2 layers of 35g/m <sup>2</sup> : 2 x 35g
<b>Repealant treatment</b>	Composition	n/a	Chemical composition of the coating
	g/m <sup>2</sup> (total)	n/a	If different layers, please indicate for example for 2 layers of 35g/m <sup>2</sup> : 2 x 35g
<b>Finish (other)</b>	Composition	n/a	Chemical composition
<b>Specific finishes</b>	Ultrasound	NO	
	Burnout	NO	
	Sanforized	NO	
	Other .....	n/a
