

Appendix

Bill of material:

AXTON PRIMER BEFORE PAINT&WALL PAPER (DRY ROOM) 1L 3276006224048

Plastic bottle 1L,
plastic cap
label

Composition: polymer dispersion, improving additives.

Instruction manual:

- 1. Surface preparation**
The substrate needs to be degreased, dry, free from dust, dirt and lime.
 - 2. Tools**
Apply the primer using a brush or a roller.
 - 3. Application temperature**
Use the primer only when its temperature as well as ambient and substrate temperatures are within the +5 °C to +25 °C range.
 - 4. Guidelines**
Stir thoroughly before use. Apply product after at least 3 days (but not later than 3 months) after the reinforce layer was formed. The primed surface is ready to use after it has dried completely.
 - 5. Cleaning tools and soiled items**
Wash tools with water after use.
 - 6. Notes**
Before application check quality of cement mortar. Do not mix with other products.
