

OWNER'S MANUAL WARNING

Never leave your child unattended – drowning hazard.

KEEP ASSEMBLY AND INSTALLATION INSTRUCTION FOR FUTURE REFERENCE.

- Only for domestic use.
- Only for outdoor use.
- Children can drown in very small amounts of water. Empty the pool when not in use.
- Do not install the paddling pool over concrete, asphalt or any other hard surface.
- Place the product on a level surface at least 2 m from any structure or obstruction such as a fence, garage, house, overhanging branches, laundry lines or electrical wires.
- Recommend back towards the sun when playing.
- Modification by the consumer of the original paddling pool (for example the addition of accessories) shall be carried out according to the instructions of the manufacturer.

PREPARATION

Installation of small swimming pool usually takes only 10 minutes with 1 people.

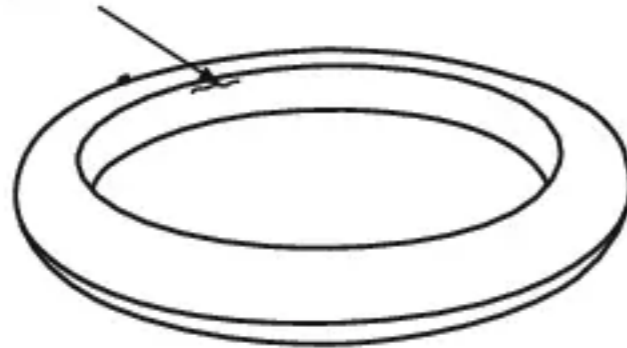

Recommendations regarding placement of the pool:

- It is essential the pool is set up on solid, level ground. If the pool is set up on uneven ground it can cause collapse of the pool and flooding, causing serious personal injury and/or damage to personal property.
- Do not set up on driveways, decks, platforms, gravel or asphalt. Ground should be firm enough to withstand the pressure of the water; mud, sand, soft / loose soil or tar are not suitable.
- The ground must be cleared of all objects and debris including stones and twigs.
- Check with your local city council for by-laws relating to fencing, barriers, lighting and safety requirements and ensure you comply with all laws.

ASSEMBLY

1. Take the pool and accessories out of the carton with care and spread out the pool on to the selected site.
2. Open the safety valves and inflate the parts one by one. Be sure to close the valves after inflation. Air pump is not included.
NOTE: Do not over inflate. Do not use either an air compressor or compressed air.
3. Slowly fill the pool to a proper water level, if there is a fill line, reach but do not exceed the fill line on the pool's interior. **DO NOT OVERFILL** as this could cause the pool to collapse.
ATTENTION: Do not leave pool unattended while filling with water.

Proper Water Level

NOTE: All drawings for illustration purpose only. May not reflect actual product. Not to scale.

EMPTY THE POOL

1. Check local regulations for specific directions regarding disposal of swimming pool water.
2. Deflate all the air chambers, at the same time push down the wall of the pool to release the water. Make sure release all the water in 20 minutes.

NOTE: Drain by adult only!

POOL MAINTENANCE

WARNING: If you do not adhere to the maintenance guidelines covered herein, your health might be at risk, especially that of your children.

- Change the water of pools frequently (particularly in hot weather) or when noticeably contaminated, unclean water is harmful to the

user's health.

- Please contact your local retailer to obtain chemicals to treat the water in your pool. Be sure to follow the chemical manufacturer's instructions.
- Proper maintenance can maximize the life of your pool.
- See packaging for water capacity.

CLEANING AND STORAGE

1. After use, use a damp cloth to gently clean all surfaces.
NOTE: Never use solvents or other chemicals that may damage the product.
2. Air dry the pool, once pool is completely dry, fold pool carefully and put back to its original packing. If pool is not completely dry, mould may result and will damage the pool.
3. Store in a cool, dry place and out of children's reach.
4. Check the product for damage at the beginning of each season and at regular intervals when in use.

REPAIR

If a chamber is damaged, use the provided repair patch.

1. Clean area to be repaired.
2. Carefully peel patch.
3. Press patch over area to be repaired.
4. Wait 30 minutes before inflation.

MANUEL DE L'UTILISATEUR ATTENTION

Ne jamais laisser votre enfant sans surveillance – Danger de noyade.

CONSERVER LES INSTRUCTIONS DE MONTAGE ET D'INSTALLATION POUR DE FUTURES RÉFÉRENCES.

- Réservé à un usage familial.
- Utilisation à l'extérieur.
- Les enfants peuvent se noyer dans une très faible quantité d'eau. Vider la pataouette lorsqu'elle n'est pas utilisée.
- N'installez pas la pataouette sur une surface en béton, en bitume ou toute autre surface dure.
- Placez le produit sur une surface plate à au moins 2 m de toute structure ou obstruction comme des clôtures, un garage, une maison, des branches pendantes, des cordes à linge ou des fils électriques.
- Pendant le jeu, il est recommandé de tourner le dos au soleil.
- Si le client souhaite modifier la pataouette originale (par exemple en ajoutant des accessoires), il doit le faire en respectant les instructions du fabricant.

PRÉPARATION

L'installation d'une petite piscine ne prend en général que 10 minutes à une personne.

Recommandations concernant l'emplacement de la piscine:

- Il est essentiel que la piscine soit montée sur un sol compact et nivelé. Si la piscine est montée sur un sol non uniforme, cela pourrait provoquer l'effondrement de la piscine et une inondation, provoquant de graves blessures personnelles et/ou des dommages aux biens personnels.
- Ne montez pas la piscine sur une voie d'accès, une terrasse, une plateforme, du gravier ou du goudron. Le sol doit être suffisamment solide pour supporter la pression de l'eau; la boue, le sable, la terre molle/lâche ou le goudron ne conviennent pas.
- Le sol doit être dégagé de tout objet ou débris, y compris les pierres et les brindilles.
- Contrôlez auprès de votre municipalité les arrêtés municipaux concernant le clôturage, les barrières, l'éclairage et la sécurité et assurez-vous qu'ils soient conformes à la législation.
